

PSP AlucoBuild Warranty

PSP Limited warrants ALUCOBUILD ACM panels when installed correctly and used under normal conditions for a period of:

- 15 years for all Colours

In the event that the ALUCOBUILD panel is found to be defective within the warranty period, PSP Limited will either replace the sheet free of charge or credit the original invoice in full.

The commencement date will be from the date of purchase from PSP Limited. The warranty is valid to the original purchaser. Proof of purchase must be provided by way of the original invoice.

PSP Limited warrants that the ALUCOBUILD panel when installed vertically will not:

- Peel, flake, crack, or delaminate when exposed to weather (except for slight cracking as may occur on tightly roll formed edges or brake bends at the time of forming pre-painted sheets)
- Will not chalk in excess of ASTM D-659-86 No 8 rating
- Will not change colour in excess of 5 NBS units when measured according to ASTM C-2244-79 on the exposed coated surface.*

***Panels must have been regularly cleaned of external deposits and chalk. If the panels are exposed to salt spray, PSP Limited recommends a regular cleaning programme with fresh water to prevent the accumulation of salt deposits, for the warranty to be valid.**

The warranty is subject to the following conditions;

- Normal conditions exclude corrosive or aggressive environments such as those contaminated with chemical fumes or salt spray, intermittent or continual submersion in water, any other liquid and damage from strong wind with sand.
- Damage to the coated material caused by handling, processing and/or installation.
- Damage to the coated material caused by scratching after installation.
- Damage to the coated material from cut edges exposed to weather.
